

Exhibitor Review from LIPOELASTIC's - Dalibor Svec

<https://www.lipoelastic.co.uk>

“I was representing LIPOELASTIC, manufacturer of compression garments, this weekend at Living to your full potential conference by Talk Lipoedema in Birmingham. It was my pleasure to be surrounded by all those strong ladies and to hear their life stories but mainly to get to know more about their sickness...

Dalibor Svec & Mary Fickling

I was truly moved by this experience and got different perspective on ladies with this problem. I very much wish for experts to observe this area more in order to find accurate treatment for them. We got very positive feedback on our products from ladies there but I hope that our development team will work hard to invent even better products for Lipoedema patients."
